

Use the wall dock with the supplied tape or screws to secure the multi-charger in the most convenient location, for example: on the wall, in a locker or under a table.

If your cables frequently are unwantedly "borrowed", you can now secure them with the cable cover and prevent it from being removed by locking it with the included tape.

Tripler is probably the most practical 3x port multi-charger, easy to use in the home, then simple to grab along during travel

Many chargers provides high power per port, but low total power. This multi-charger can provide full power (2.4A) on all ports – simultaneously! Use the wall dock with the supplied tape or screws to secure the multi-charger in the most convenient location, for example: on the wall, in a locker or under a table. Sleep well while charging, knowing that the charger production facility is frequently and meticulously inspected by engineers from the German safety company TÜV.
